Consumer Notes:

After months that have tons of stuff coming out, this is a surprisingly quiet one (and we're also sure that following months will be back to tons of stuff once again ... don't worry about that) in terms of new video product. There are new volumes of Outlaw Star and Cowboy Bebop (which probably should be enough for anyone, actually), as well as the promised Lupin III: Castle Cagliostro (a new dub, a never-before available sub, and DVD!) and Perfect Blue DVD!. If you go for adult product, consider Lesson of Darkness as it's pretty nasty! Have a great month!
